

ABOUT US:

"Wholesale Electric Caribe, Inc. (WECI) has over 20 years of experience providing solutions for the electrical, solar and lighting markets. Focused on customer service, has led to constant and sustained growth since its origin in Barceloneta, Puerto Rico. Our qualified group of experts will be dedicated to supply all kinds of projects, whether residential, commercial or industrial."

"It currently has multiple full-service branches located in Puerto Rico, New Jersey, Florida, Washington DC and sales offices in Maryland and Panama."

OUR PRODUCTS:

"WECI represents thousands of products for the electrical, solar and lighting markets, working with brands of the highest quality and products with the largest inventory of the most important manufacturers in the world. In addition, it is a company interested in promoting renewable solar energy, which is why they focus on the implementation of technology and environmental care."

ABOUT ELECTRICAL AND LIGHTING: Wholesale Electric Caribe is a Puerto Rico based DBE/MBE/HubZone certified electrical distributor active in Federal, State and Municipal Construction projects. WECI is financially strong and uniquely positioned to manage your electrical supply needs.

This division supplies a wide range of products from electrical substations to switches, varying from lighting fixtures, lamps and its components. In general, WECI has a capability to manage multiple Residential, Commercial and Industrial Projects.

SOLAR ENERGY DIVISION:

www.wecipr.com | wecipr@wecipr.com
Solar Energy Division Direct: 787-623-0331

ABOUT SOLAR ENERGY DIVISION: Promoting education to the community and reducing our territory's ecological footprint, WECI offers cost-free training in collaboration with Schneider (among others), on the management, use and reliability of solar equipment. The desire is to educate and generate interest on how the island can move towards the production of renewable energy in their homes with products of the highest quality.

If you are deciding to install a solar system project, making your home or business solar-ready, our Solar Energy Division personnel can guide you through that process. For more details, please contact us and get oriented with the experts.
